Service Award: 2018

Statement: Having been invested and actively involved in this organization for decades, I proudly accept the nomination of the office of Comptroller. I believe that Phi Rho Pi officers should serve the organization by always prioritizing student needs and experience. Additionally, I believe that it is important to challenge groupthink and consider all possibilities before taking actions that affect the organization as a whole. I have profound respect for the past officers and thank those exiting their positions for their service. It is important to not have the same people making decisions year after year. If elected I look forward to working with Cynthia on a smooth transition and vow to make my duties as comptroller my top priority.
