Sweepstakes Slots

Slots are used to determine placement in sweepstakes categories.

There are three classifications of Sweepstakes based on number of slots: Hindman Division (small), Wheeler Division (intermediate), and Wyman Division (open). The Hindman schools category shall be determined by counting the slots entered by each school in the tournament. Schools whose slot totals are between 1 and 15 are entered in the Hindman Division. Schools with 15.5 to 30 slots are entered in the Wheeler Division. All schools with 30.5 or more slots are entered in the Wyman Division.

The slots vary by event and mirror the sweepstakes ratio.

Every entry in Interpreters Theatre counts as three slots

Every entry in Parliamentary Debate counts as two slots

Every entry in Duo Interpretation and NFA-LD counts
as one and a half slots

Every entry in Individual Events and IPDA counts as one slot
